12:00 - 12:30: Mission-Driven Innovation & New Social Contract with Business

Panel discussion on key questions:

- What is the role of business in creating healthy work environments to increase productivity?
- How can we incentivise business to invest in products to benefit healthy life expectancy ((create health or avoid damaging health) and minimise health inequalities? Could this be a source of competitive advantage?
- How can business tackle ageism and support older workers?
- How we create a longevity industry that delivers the longevity dividend for all? Can we create a local ecosystem and marketplace to develop and scale market-led solutions?

Panellists

- Chair: John Godfrey, Corporate Affairs Director, Legal & General
- Dmitry Kaminskiy, Founder, Longevity.Capital
- Sergey Young, Founder, Longevity Vision Fund
- Yvonne Sonsino, Global Co-Leader, Next Stage, Mercer
- Steve Bennis, IoT Futures Principal Researcher, BT (TBC)
